P/N: 69-RPJKT-TAN-M/L, 69-RPLJKT-TAN-L/XL.

NSN (NATO): TBC

Sizes: M/L, L/XL.

Colour: Tan.

Product Approvals

All UTM Protective Clothing has been rigorously tested in our testing facility.

Mesh, Padding & Materials

- All protective clothing is made with a cool mesh material.
- Interior panels are constructed with durable 420D Pack Cloth and Closed Cell foam for maximum impact protection and durability.
- Double stitching.

Features

The UTM Protective Clothing is the latest in personal protection for Force-on-Force training. The clothing was designed and developed in conjunction with military and law enforcement customers to correct many of the problems that are inherent in most NLTA/FOF equipment with a few new innovative features.

- The jacket is longer in length and includes red & green team identifier vests.
- The vest has integrated magazine pouches like a tactical vest to accommodate handgun and rifle magazines.
- Internal impact panels are strategically placed to minimize repeated shots during extended Role Playing.
- The clothing has fully adjustable heavy duty velcro panels to accommodate all size variants.
- Access slots and retainer straps for integration with hydration systems during extended Role Playing.

European Patent number: 1228342 additional patents pending. US patent numbers: 6253682, 6371028, 6427600, 6095051, 6378439, 6422149, 6415718, 6564719 UTM, Ultimate Training Munitions, and the "Breech" logo design are trademarks belonging to UTM Ltd.

ROLE PLAYER JACKET

Care, Cleaning and Maintenance

The UTM Protective Clothing are intended to be issued as an item of Personal Protective Equipment (PPE). The clothing should be cleaned and sanitized upon completion of training.

- Wipe clean after each use with mild detergent/water or water only. Hang dry.
- Machine wash on normal with mild detergent. Close velcro fasteners to avoid snagging. Hang dry or tumble dry normal.

Usage Guidelines

- Intended only for supervised training conducted in accordance with UTM safety training protocols by law enforcement, military or professional training and security organizations.
- Verify that all PPE is correctly fitted, ensuring there are no exposed areas of the skin.
- UTM assumes no responsibility for injuries, loss or damage resulting from misuse of this or any of its products.

WARNINGS

Whenever training with UTM Man-Marker Rounds, it is mandatory that all personnel in the training area wear the appropriate UTM Personal Protective Equipment which is designed to handle the impact energies of the UTM MMR. When training with UTM MMR there are to be no areas of exposed skin. It is imperative that while training is in action, ALL protective gear MUST fit correctly and be in position at all times. ALL UTM PPE are for NLTA ONLY!
